

PURE  
HEART

## INSTALLATION GUIDE

---

### IMPORTANT

Please make note that in order for the SVG font to work properly, you need Adobe Photoshop 2017 CC Version 2017.1.1 or later. Make sure you update.

---

### INSTALLING THE FONT FILES WITH MAC OS

1. In the 'Fonts' folder, right click on the file PureHeartSVG-Regular.otf
2. Under the 'Open With' menu, choose 'Font Book'
3. Click 'Install Font'
4. Repeat these steps with the PureHeart-Regular.otf file. Only install the .ttf file if the .otf file does not work.

### INSTALLING THE FONT FILES WITH WINDOWS

1. In the 'Fonts' folder, right click on the file PureHeartSVG-Regular.otf
  2. Select 'Install'
  3. Repeat these steps with the PureHeart-Regular.otf file. Only install the .ttf file if the .otf file does not work.
- or
1. Search for 'Fonts' in the search box by the start menu.
  2. Click on the Fonts folder.
  3. Drag and drop both of the .otf files into the Fonts folder. Only install the .ttf file if you do not want to use the .otf file
- 

### INSTALLING THE BRUSH FILES

1. Within Photoshop, choose your brush tool 
2. Open up the brush menu to choose your brush 
3. Open the settings of the brush menu 
4. Click on 'Load Brushes'
5. Navigate your way to your unzipped Pure Heart files, and choose the brush you would like to use.
6. Repeat these steps to load in the other brushes you would like to use. Your previously loaded brushes will not be replaced.
